                                                                                                                                                                                                                                                                                                                                                        The present sequence encodes a chicken c-erg protein. The specification also describes a chicken C-ll protein (AAY01520) which has cell calcification inhibiting activity and a cell calcification inhibiting activity agent containing c-erg protein. The proteins are used for measuring the calcification of a cell, for diagnosing arthritis deformans or ossification of spinal column ligament.

                                                                                                                                                                                                                                                                                                                             The present sequence encodes a chicken C-11 protein which has cell calcification inhibiting activity. The specification also describes a cell calcification inhibiting agent containing c-erg protein (AAY01521). The proteins are used for measuring the calcification of a cell, for diagnosing arthritis deformans or ossification of spinal colling.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      Chicken; C-11 protein; cell calcification inhibiting activity; cell calcification inhibiting agent; c-erg protein; arthritis deformans; ossification; spinal column ligament; ss.
